Low Emission Zone	2023/24 Inc VAT where appropriate
LEZ Penalty Charges	<p>From 1 June 2023, if a non-compliant vehicle is detected in Glasgow's LEZ, a Penalty Charge Notice (PCN) will be issued to the registered keeper of that vehicle.</p> <p>A maximum of one PCN will be issued to the vehicle's registered keeper for breaching LEZ rules in any one day.</p> <p>Set at national level by the Scottish Government for consistency across cities, the initial penalty charge for all non-compliant vehicles entering a LEZ in Scotland will be £60.</p> <p>A scheme surcharge however means that the penalty charge amount will double with each subsequent breach of the rules by the same vehicle detected in the same LEZ.</p> <p>Surcharging will only start however after the first PCN (issued at the initial base tier of £60) can be expected to have been received by the vehicle's registered keeper.</p> <p>Penalty charge rates are capped at £480 for cars and light goods vehicles, and £960 for buses and HGVs. Any further breaches of LEZ rules by the same vehicle detected in the same LEZ once this cap is reached will result in future PCNs issued at the capped penalty charge rate.</p> <p>Where there are no further breaches of the rules detected within the 90 days following a previous violation, the penalty rate will be reset to the base tier charge of £60.</p> <p>All PCNs will be reduced by 50% if paid within 14 days.</p>

Note

(1) Charges applicable from 1st June 2023

(2) All revenue (above that incurred in running the LEZ scheme itself) can only be used for activities that help reduce air pollution and/or contribute toward achieving our climate change targets

Notes

(i) These figures already include an allowance for inflation over a three-year period (the minimum duration of a construction consent).

(ii) The costs are based on Neighbourhoods and Sustainability doing all the work. To compensate for undertaking completion of work initiated by other parties, the following procedure should be adopted:-

- (a) Add 25% where the estimated cost is less than £10,000;
- (b) Add 15% where the estimated cost is between £10,000 and £25,000;
- (c) Add 10% where the estimated cost is between £25,000 and £50,000.

(iii) Where the bond has to cover items such as major structures, or substantial amounts of excavation or fill, full details should be sent to NRS who will undertake estimation.

Glasgow City Council Neighbourhoods, Regeneration and Sustainability will (if necessary) apply a charge for what is considered to be the works involved, over and above the charge that it is our statutory obligation to incur, in the processing of this Roads (Scotland) Act 1984, Section 21, Construction Consent application. Chapter 2.6 of the Council's Roads Development Guide outlines the requirements for an acceptable submission for a Construction Consent application, and those complying with this will not incur a charge. As notified within the above named publication, charges will also be made for site inspections, materials testing and any temporary regulation order following commencement of work on site. All of the above will be based on staff hourly rates with the actual cost incurred being the sum charged.
