

Dear [REDACTED]

**EVENT DAY EMERGENCY ROUTES AND PARKING ZONE ORDER 20\_\_ CELTIC PARK AND EMIRATES ARENA & IBROX STADIUM**

The reporters acknowledge the "outline statements of case" dated 31 January 2022, and associated documents, submitted by [REDACTED] of Harper Macleod on behalf of the council.

In the first instance, the reporters have requested clarification of the description "outline statement of case", as there is no provision in the process agreed in the finalised note of the pre-hearing meeting for such statements. Please indicate what the council's intentions are in this respect.

In the meantime, we have written to all those parties who have stated an intention to participate in the hearings (copy enclosed), the primary purpose of which is to ask for the views of those parties who are submitting statements on the time considered necessary for this. We have also however provided an opportunity for any updated views on the hearing process, including from those who are not required to submit statements. This provision is also of course available to the council.

The reporters will take into account all responses received, and will publish the date for the submission of others' statements and the date of the hearings in due course. Any other changes to the hearing process as set out in the finalised notes of the prehearing meetings, following on from this consultation, will also be published.

Yours sincerely

Programme Officer Team
