### Baillieston Community Hub Engagement

Glasgow City Council has made a commitment to support the development of a Community Hub in Baillieston. If you live in Baillieston or the surrounding area or are likely to use the Hub, we would be delighted to hear your views on the proposals that have been drawn up regarding the new hub. Initial concept design plans and storyboard information are now live on the Glasgow Life website here as well as a survey that will allow us record your feedback on the concept design plans.

Your views are extremely important in terms of developing these concept designs further, if you are unable to access the online survey hard copies will be available within Baillieston library as well as visual display board of the designs.
