Also, they aren't even local. Or get involved with the local community.

**Subject:** Cathkin park

Hi,

Little bit upset that this is even being considered without a proper consultation of the neighbourhood. 4 days to go and I am just hearing of this and I use that park everyday. And since I use it everyday I have overhead the coaches for this team boasting that they can't wait to shut this off.

I object wholeheartedly to this being transferred to a "charity" (have you done some digging on this, I have)

This a well loved park and if they can't share it, like they do now then they should find a new home. This park is well used and I fear for its future now
