## INTRODUCTION

- 1 The Housing Land Audit 2020 identifies all potential housing sites in the City at 31 March and estimates future completions from this supply over the following seven years (1 April 2020 to 31 March 2027). In addition to new build sites, the supply also includes conversions from non-residential use and rehabilitation of existing stock involving a change of tenure.
- 2 The schedules of sites are categorised by tenure and planning status (see below for definitions) with the unique site reference number used to order sites within each category. This format has been agreed by all Councils in the Glasgow and Clyde Valley area, and provides a consistent approach that facilitates analysis across the Clydeplan Strategic Development Plan area. By convention, small sites, i.e. less than 4 dwellings, are excluded from the Clydeplan-wide view of housing land supply (the Established Land Supply). The City Council, however, monitors small sites and they are included in this document in a separate set of schedules.
- 3 Notes on the data provided in the site schedules are provided in Section B. Section C provides more detailed Additional Notes on specific issues, i.e. Tenure, Site Capacity, Established Land Supply, Effective Land Supply, Programmed Output and House Types.
- 4 A4 Maps have been included to show all sites in the land supply, including small sites (1-3 houses). The maps are 1:12,000 scale with 1:6,000 scale insets where greater detail is required. The map index sheet shows the map coverage and the reference number for each A4 map.

- 5 Section D contains a set of tables summarising the land supply position at 31 March 2020 (Tables 1-7) and past house-building rates (Tables 8-14). An additional schedule of 'Recent Housing Completions' is included in an Appendix. It lists all sites on which houses have been completed within the last five years (1 April 2015 – 31 March 2020).

- 6 If you have any queries regarding this document, please contact:

Chris McNey

Glasgow, G1 1RX

DevelopmentPlan@glasgow.gov.uk.

**Note:** The inclusion of sites in the supply does not necessarily infer site availability and only contact with individual owners may ascertain this. If planning permission does not already exist for a particular site, inclusion in the supply does not pre-empt any decision of the City Council in relation to the principle of housing development.

## HOUSING LAND AUDIT - 31 MARCH 2020

### (A) TENURE AND PLANNING STATUS DEFINITIONS

The **TENURE** categories used are:

- (i) **Private Sector** Dwellings built for owner occupation or private rent. (see Additional Note 1)
- (ii) **Affordable Sector** Dwellings built for Social Rent, Mid-Market Rent, Shared Ownership and Shared Equity

The **PLANNING STATUS** categories used are:

- (i) **Under Construction** Sites under construction at 31 March 2020.
- (ii) **Consents** Sites with outline/ planning permission in principle or detailed planning consent at 31 March 2020.
- (iii) **Residential Potential** This category includes a wide variety of sites not covered by the above categories, including (a) sites being promoted for housing by the City Council, and (b) other sites that are recognised by the City Council as having residential potential.
- (iv) **Greenfield Release** Greenfield sites identified to meet Structure Plan or Strategic Development Plan additional land requirements, but which do not have planning consent at 31 March 2020.

HOUSING LAND AUDIT - 31 MARCH 2020

**(B) SITE SCHEDULES – Notes and Definitions**

<b>Site Ref</b>	Unique sequential reference number for each site. Sites that have been split into a number of separate sites (e.g. separate phases within a site or mixed tenure developments) have the suffix 'A', 'B', etc. these may on occasion share the same geography.
<b>Map</b>	Reference number of A4 map.
<b>Grid Ref</b>	Ordnance Survey grid reference.
<b>Ward</b>	Council ward site is located in.
<b>Address</b>	Specific site address (where possible street names are used).
<b>Builder</b>	Refers to the developer of the site (if known). In the social rented sector, the housing association that will own and manage the stock is generally shown.
<b>Owner</b>	Sites which appear to be in public ownership are subdivided into the following categories: Glasgow City Council (GCC), Glasgow Housing Association (GHA), Housing Association (HA) and "Other Public" (OP) for example, Scottish Enterprise or Network Rail would be considered 'other public'. All other sites are assumed to be privately owned and are identified as "private" based on information provided to the Planning Authority. The Land Registry should be contacted for specific details of ownership.

<b>Area (ha)</b>	The area of the site in hectares.
<b>Capacity</b>	The total capacity of the site expressed as number of dwellings (see Technical Note 2).
<b>Dev Type</b>	Refers to both the type of development and type of site:
<b>NB-B</b>	<b>New Build on a Brownfield site</b>
<b>NB-G</b>	<b>New Build on a Greenfield site</b>
<b>CONV</b>	<b>Conversion of building from other uses to housing.</b>
<b>REFURB</b>	<b>Refurbishment of stock involving a change of tenure.</b>
	The suffix <b>-U</b> (urban) or <b>-NU</b> (non-urban) refers to whether the site is located inside or outside the built-up area.

HOUSING LAND AUDIT - 31 MARCH 2020

**SITE SCHEDULES – Notes and Definitions (continued)**

<b>Tenure</b>	O/O P/R	Owner Occupied Private Rented
	Taken together O/O and P/R tenure are considered Market Tenure	
	S/E S/O S/R MMRS MMRP	Shared Equity Shared Ownership Social Rented Mid-Market Rent by RSL Mid-Market Rent by private developer
	Taken together S/E, S/O, S/R, MMRS, MMRP are considered Affordable Tenure	
<b>Fund Prog</b>	Refers to sites identified in the current development funding programmes:	
	GCC-RSL GHA Gov	Funding programmes administered by the City Council, including for shared equity and shared ownership developments. Glasgow Housing Association's new build programme. Scottish Government's Innovation & Investment Fund

<b>Sub-Market</b>	Refers to the market tenure housing sub-market area in which the site is located. These areas are often shared with neighbouring Local Authorities and form part of the housing market area system (developed for the Structure Plan and included within the Strategic Development Plan) within which market tenure supply and demand is functions.
	GE GGNW GGS SGNE
	Glasgow East Greater Glasgow North & West Greater Glasgow South Strathkelvin & Greater Glasgow North East
<b>PA Status</b>	This field provides additional information on the status of the site. For those sites with planning consent, it identifies whether it is outline/ planning permission in principle or detailed consent. For potential sites it indicates where a planning application has been submitted or granted subject to Section 69 or 75 agreement being signed (as at 31 March 2020).
<b>Established</b>	An entry in this field shows that the site is part of the Established Land Supply. The year indicates that the site has been <u>continuously</u> considered part of the Established Land Supply since then. (see Additional Note 3)
<b>Effective</b>	An entry in this field means the site is considered Effective, i.e. that development is anticipated on the site over the next seven years. The year indicates that the site has been <u>continuously</u> considered Effective since that date. (see Additional Note 4)

HOUSING LAND AUDIT - 31 MARCH 2020

**SITE SCHEDULES – Notes and Definitions (continued)**

<b>SPGR</b>	Indicates a greenfield site released to meet Structure Plan or Strategic Development Plan additional land supply requirements. The date refers to the publication year of the relevant Structure Plan or Strategic Development Plan.
<b>Built</b>	Indicates the number of dwellings built and occupied each year over the previous three years. Sites that have been under construction for longer than this will have the sum of earlier completions in the Pre 17 column.
<b>Total Built</b>	Indicates the total number of dwellings <u>complete and occupied</u> at 31 March 2020.
<b>Rem Cap</b>	The remaining capacity of the site, i.e. dwellings not yet started, dwellings under construction and dwellings built but not yet occupied at 31 March 2020.
<b>Flats</b>	Indicates the number of flats to be developed on each site. (see Additional Note 6) 'Est' indicates where this figure is an estimate.

The remaining fields are relevant only to sites in the Established Land Supply, i.e. excluding sites with a capacity of less than 4 units. Note that, because of uncertainty about tenure, sites in the 'Tenure Not Specified' category are treated as non-effective. The methodology used in programming sites is described in Additional Note 5.

**Programming**            Anticipated completions by year over the next seven years (1 April 2020 to 31 March 2027).

**Total 20-27**            Total programmed output for the next seven years.

**Post 2027**            Indicates the residual capacity not included in the total programmed output. The main reasons for capacity being included in the Post 2027 column are:

- (a) The site may be anticipated to have a slow development rate or a long lead-in time so that only part of its potential capacity for new homes is expected to be realised within the next seven years.
- (b) The site may be large and anticipated to be subdivided at a later stage, with not all phases producing output during the next seven years.
- (c) The site may be subject to constraints that currently make the delivery of the development during the next seven years unlikely. These sites are considered to be non-effective but can contribute in time.

**(C) ADDITIONAL NOTES**

**1 TENURE – Private Sector**

The land supply differentiates between sites for owner-occupation and private rental where possible, although they are both considered market tenure homes for the purposes of assessment against the Strategic Development Plan. Where tenure is not specified the default is assumed to be owner-occupation tenure.

**2 SITE CAPACITY**

The site capacity figures used are the most realistic assessments available. These are taken from planning consents, planning applications or other known proposals. In the absence of such information, a notional capacity based on housing density is applied. The *City Development Plan, SG1, Placemaking (Part 2): Residential Density* specifies a range of housing densities according to location and accessibility to public transport. For the purposes of estimating capacity, however, these ranges are replaced by a single density figure for each category, as follows:

Location	Public Transport Accessibility	Notional Density (houses per hectare)
City Centre	High or Base	100
Inner Urban	High	100
Inner Urban	Base or Below Base	50
Outer Urban	High	30
Outer Urban	Base or Below Base	30
Non Urban	All	20

The particular notional densities used have been chosen to ensure that the overall capacity of the land supply is not over-estimated. Previous analysis has shown that the application of the above densities will tend to under-estimate capacity.

Note: The capacity of a housing site may change over time. The inclusion of an estimated figure in this document does not imply that the capacity is acceptable to the Council. That can only be established by planning consent.

## (C) ADDITIONAL NOTES (continued)

### 3 ESTABLISHED LAND SUPPLY

All sites with a total capacity of four or more dwellings, collectively make up the established land supply (ELS). The ELS comprises the remaining capacity on sites under construction, sites with planning consent, and other land and buildings that are recognised as having potential for housing development.

### 4 EFFECTIVE LAND SUPPLY

This housing land audit has been prepared in line with the timescales set out in Scottish Planning Policy (June 2014 as amended December 2020). It requires the Strategic Development Plan (SDP) to identify sites that are capable of development by the end of year 7, building in up to 2 years to allow for the adoption of Local Development Plans following the approval of the SDP.

The assessment of site effectiveness has been undertaken by applying the criteria below from [Planning Advice Note 2/2010 Affordable Housing and Housing Land Audits](#) (August 2010).

- **ownership** : the site is in the ownership or control of a party which can be expected to develop it or release it for development. Where a site is in the ownership of a local authority or other public body, it should be included only where it is part of a programme of land disposal;

- **physical** : the site, or relevant part of it, is free from constraints related to slope, aspect, flood risk, ground stability or vehicular access which would preclude its development. Where there is a solid commitment to removing the constraints in time to allow development in the period under consideration, or the market is strong enough to fund the remedial work required, the site should be included in the effective supply;
- **contamination** : previous use has not resulted in contamination of the site or, if it has, commitments have been made which would allow it to be developed to provide marketable housing;
- **deficit funding** : any public funding required to make residential development economically viable is committed by the public bodies concerned;
- **marketability** : the site, or relevant part of it, can be developed in the period under consideration;
- **infrastructure** : the site is either free of infrastructure constraints, or any required infrastructure can be provided realistically by the developer or another party to allow development and
- **land use** : housing is the sole preferred land use of the land in planning terms, or if housing is one of a range of possible uses other factors such as ownership and marketability point to housing becoming a realistic option.

## (C) ADDITIONAL NOTES (continued)

### 5 PROGRAMMED OUTPUT

Estimated start-dates for effective sites are based on:

- (a) development lead-in times, including the estimated time taken to overcome constraints and gain all the necessary permissions;
- (b) availability of funding, if required; and
- (c) development of other sites in the locality.

The annual programmed output from each of the effective sites in the private sector over the 7-year period is estimated taking into account a variety of factors including those listed below. These factors are not a consideration in the affordable sector.

- (a) site location;
- (b) developer involved;
- (c) type and price of dwelling;
- (d) past performance; and
- (e) competition between sites.

Due to the greater uncertainty in estimating output for sites in the private sector of less than 10 houses that have not yet started, a convention has been established whereby these sites are grouped together and only 50% of their total capacity is included in the total programmed output. The 50% rule is based on an assessment of past trends in the proportion of such sites that have been built. Mixed tenure sites are sub-divided by tenure and this often results in a site of less than 10 shared ownership or shared equity units. For these sites, programming is related to the whole development site, and the 50% rule is not applied.

### 6 EFFECTIVENESS AND PROGRAMMING – Current Market Conditions

The COVID-19 pandemic has had an impact across the globe and the housebuilding industry in Scotland was not immune. It experienced closures of all sites over the summer of 2020 and then the introduction of safety measures, such as social distancing, has impacted on sites as they re-started.

The longer-term impact is uncertain, Homes for Scotland have advised that they expect the industry to absorb the short-term impact and much of the programming for this year's Audit reflects a continuation of the position in 2019.

This year's Audit was also not immune to COVID-19. The first lockdown took place during the normal site visiting period (April to June) and subsequent social-distancing measures restricted the collection of information from face-to-face interviews.

The bulk of the data collection was completed in the Autumn of 2020 with consultation limited to key stakeholders including Homes for Scotland in early 2021. The co-operation of key stakeholders in delivering the Audit must be acknowledged.

### 7 HOUSE TYPES – Private Sector

Information on the total number of flats on each site is included in the site schedules. Table 6 summarises the balance between flatted and other house-types by Ward. Table 12 summarises the past completions by flats, detached, semi-detached and terraced housing for the last ten years.

TABLE 1

## 2020 Housing Land Supply - Programming by Tenure and Category

Tenure / Category	2020 Established Land Supply	2020-21	2021-22	2022-23	2023-24	2024-25	2025-26	2026-27	2020-2027 Effective Land Supply	Non-Effective Land Supply
<b>Private Sector</b>										
Under Construction	4,845	1,064	1,351	1,130	513	461	139	138	4,796	49
